Sir:

Prior to initial examination, please amend the above-identified application as follows:

IN THE CLAIMS:

Please replace claims 5 and 18 as follow:

91 5. (Amended) The pharmaceutical composition of Claim 4 wherein said
amphipathic lipid is phosphatidylethanolamine (PE).

92 18. (Amended) A pharmaceutical composition for parenteral administration
comprising a therapeutically effective amount of a protein or polypeptide and substantially
neutral colloidal particles, said particles comprising approximately 1-20 mole percent of an
amphipathic lipid derivatized with a biocompatible hydrophilic polymer, said polymer
carrying substantially no net charge,

wherein said protein or polypeptide is selected from the group consisting of:

(a) proteins or polypeptides capable of externally binding said colloidal particles;

and
